About

Callie is generally not very capable of understanding that someone could bear ill will, and is extremely trusting and generous towards all, which generated much goodwill, but potentially opened her up to being deceived easily and thusly harmed. She was usually not the smartest individual, but always meant well. Sometimes she knows things that are surprising she would, and occasionally speaks with the wisdom of the sky, as everything happens under the sky. She was *incredibly* fond of Cookies, Cakes, and all things sugary and fun.

Callie was the Patron Goddess of Solar Winds(wind civ, air temple). The precise domain was Air, but also encompassed such concepts as Whimsy, Airheadedness, Sky, Wind, and Sweets. She guided the disparate wind followers, or whimsy followers to each other at the beginning via possessing various chickens. This allowed people to congregate at the site the Air Temple was later

constructed at, resulting in the formation of Solar Winds. Callie barely understood that people could be 'evil' and was incredibly forgiving, even to the point of completely forgiving and welcoming Golden_Pearl, even after they previously attempted to kill her. However, contrary to some behavior she showed oddly comprehensive knowledge and spoke in cryptic brevity prior to complete manifestation. She tended to give people rides around the map on the 'Callie Express' , in which a pig in a boat was leashed to a Happy Ghost and people sat on the pig, and Callie dragged them around with her exclusive creative flight given by her Domain.
