“ ANIMAL YOU BUM-

About

An atheist who believed in the supremacy of the reincarnators beyond the divinities. His philosophy was either one god or no gods as he saw the existence of a pantheon as a detriment to the progress of reincarnators. He would spend the event trying to kill the gods and convincing others to follow him, though no one did. He would form the [Red Clover](#) with Lazy_Jester, Foggy_Pearl, Primal_Ender, Unspoken_Breeze, and Silent_Oath. He didnt agree with most of the other members plan but saw compromise with them. He was able to see his goals somewhat accomplished as he was able to kill two gods and see humanity united in killing Exiled_Abyss. Near the end he would come to accept the place of the divinities in the world. He would spend the last session enjoying the world and coming back to his home the Beyond where he would die due to being poisoned by Animal_lover.

History

Early Event:

He would spawn on the grass plains and immediately find Tripping_Cascade and help him build a sky base. For the first few sessions he would spend his time at the young Mine Civ. His first

interactions with the gods were in the form of divine chickens that nomads brought to the sky base as they claimed to be given by the Wind God [Callie](#), he would kill these chickens. He would also meet Animal_lover and their prophet.
